

-1- PRESENTATION FORM

Name and surname / Name of the group

Vacide Erda Zimic

City

Lima

Country

Perú

Bio

My work uses recovered materials to show that inanimate objects can be reused and reinvented as something else: a piece of jewelry for example. This is why I find a correlation between my work and the life of vultures--animals who despite eating rotten meat and garbage live a happy and healthy life.

-2- PRODUCT INFORMATION

Product name 1

butterfly necklace
